EDUCATION & TRAINING

Full Stack JavaScript - School of Applied Technology </salt>
May 2022 – Juli 2022
Intensive three month training program for full stack web development using JavaScript with a focus on TDD, mob programming, and applied learning.

Information technology – Oslo Metropolitan University
Aug 2021 – May 2022
The most comprehensive education in data at OsloMet. The first semester covered programming in Java, SQL and Web development and including design.

Personal trainer – Norwegian School of Sport Science
Des 2020 – Des 2021
One year program with focus on research-based knowledge and skills in training theory and training planning, exercise analysis and practical training.

WORK EXPERIENCE

Barista – Kaffebrenneriet - Oslo
April 2021 – April 2022
My primary task was to make sure customers had a great experience at our store by delivering high-quality customer service, maintaining clean and organized workspace and serving topnotch coffee.

Shift leader and baker – BIT - Oslo
Aug 2017 – Mars 2021
Efficiency and working well in teams were essential skills to have while working in the fast-paced workplace. As a shift leader I had to be good at delegating tasks and problem solving.
